

Program Consent and Terms of Service

We're excited to embark on this journey with you to transform your daily medication routine and allow you to live life on your terms!

Thank you for enrolling in our medication management program and accepting these terms as a condition of using our services. It's important to note that Medicare covers the services we provide. If there are any additional costs, which we do not anticipate, you will be financially responsible for them.

Your consent to receive MedSure Systems' services allows us to share your healthcare information with your healthcare providers and pharmacy to validate your medication regimen. We're excited to have you use our services, which include a mobile app. We are committed to ensuring you know how to use our mobile app and the medication management therapy effectively.

Please understand that while we've taken significant steps to guarantee the safety and effectiveness of our devices and services, there are inherent risks that you acknowledge and understand. Always validate your medication and follow your prescribing doctor's instructions regarding your medication.

Your comfort and understanding are our priority and you have the option to opt out of our services at any time, for any reason at no cost to you.

If you have questions or need further clarification on these Terms of Service or the use of our service, please contact us at [1-800-239-0847](tel:1-800-239-0847).
